MADOKANO-MORI

A trip where you can protect  
the environment.

Hakone Onsen Gora Hanafan MADOKANO-MORI  
is the first onsen ryokan in the world to  
offer hydrogen cooking

MADOKANO-MORI, a luxury onsen ryokan  
with a total of 20 guest rooms with open-air baths,  
is blessed with beautiful views of Hakone and has a  
reputation for its spectacular views of the mountain range.

In 2023, hydrogen cooking will be introduced.  
With the desire to "protect the beautiful  
scenery of Hakone", we will start to  
provide a new healing space facing decarbonization.
